

THE CLUB

Lutterworth Golf Club was formed as a “members’ club” in 1904 with a membership of 59. We are proud to be one of the oldest clubs in Leicestershire; we are still a members club but now with a membership of around 700.

The golf course was just 9 holes until 1979 when a further 6 holes were added. In 1987 a further 3 holes were added making it an 18 hole course for the first time. In the early 1990’s the compensation for the construction of the southern bypass, which took land from the golf course, allowed the club to purchase more land and construct a further 4 holes, this permitted a new layout and a longer course which is the one we play today.

In 1996 the old wooden clubhouse was demolished and the current clubhouse constructed.

Throughout its history, the members, through the elected committee, have tried to produce a course in the best condition and a clubhouse and associated infrastructure that provided the members with good facilities and social events. This is always a difficult job particularly balancing the ever increasing cost of maintaining the course and keeping the subscriptions at a reasonable level.

The committee is held to account every year through the AGM which always takes place at the end of November. We would like to encourage all new members to come along to the AGM where they can air their views and learn about the future plans for the club.

The purpose of this guide is to try and provide new members with helpful information and advice through the following sections:-

THE COURSE

The club places an emphasis on maintaining the course in good condition and the greens are currently considered as among the best in the county.

With plenty of established trees and an ongoing tree planting programme, the presence of a number of ponds and the meandering river Swift, the course places a premium on accuracy.

The course is a good test of golf and there are a number of holes worthy of a special mention. The par 3 4th, with the river Swift on the left, requires an accurate tee shot as bailing out to the right leaves a very tricky shot to the narrow green. The long par 4 8th requires a long straight drive to give any chance of going for the green in two. The par 4 14th is a slight dogleg left and is protected by strategic bunkers and trees. Two good shots are needed to reach the narrow elevated green in regulation. The par 3 15th looks easy and is guarded by a tree on the left, a small pond and a new pot bunker – a par is always good here. Take a deep breath on the 16th, a sharp left hand dogleg with out of bounds on the left, a good drive and you are OK, but this hole has wrecked many a good card.

For further information on the course and each individual hole go to www.lutterworthgc.co.uk and select 'Course'.

Please be aware that when greenkeepers are out on the course they do have priority.
